# HOUSE OF QIDWA

## Online Store For Designer Apparels

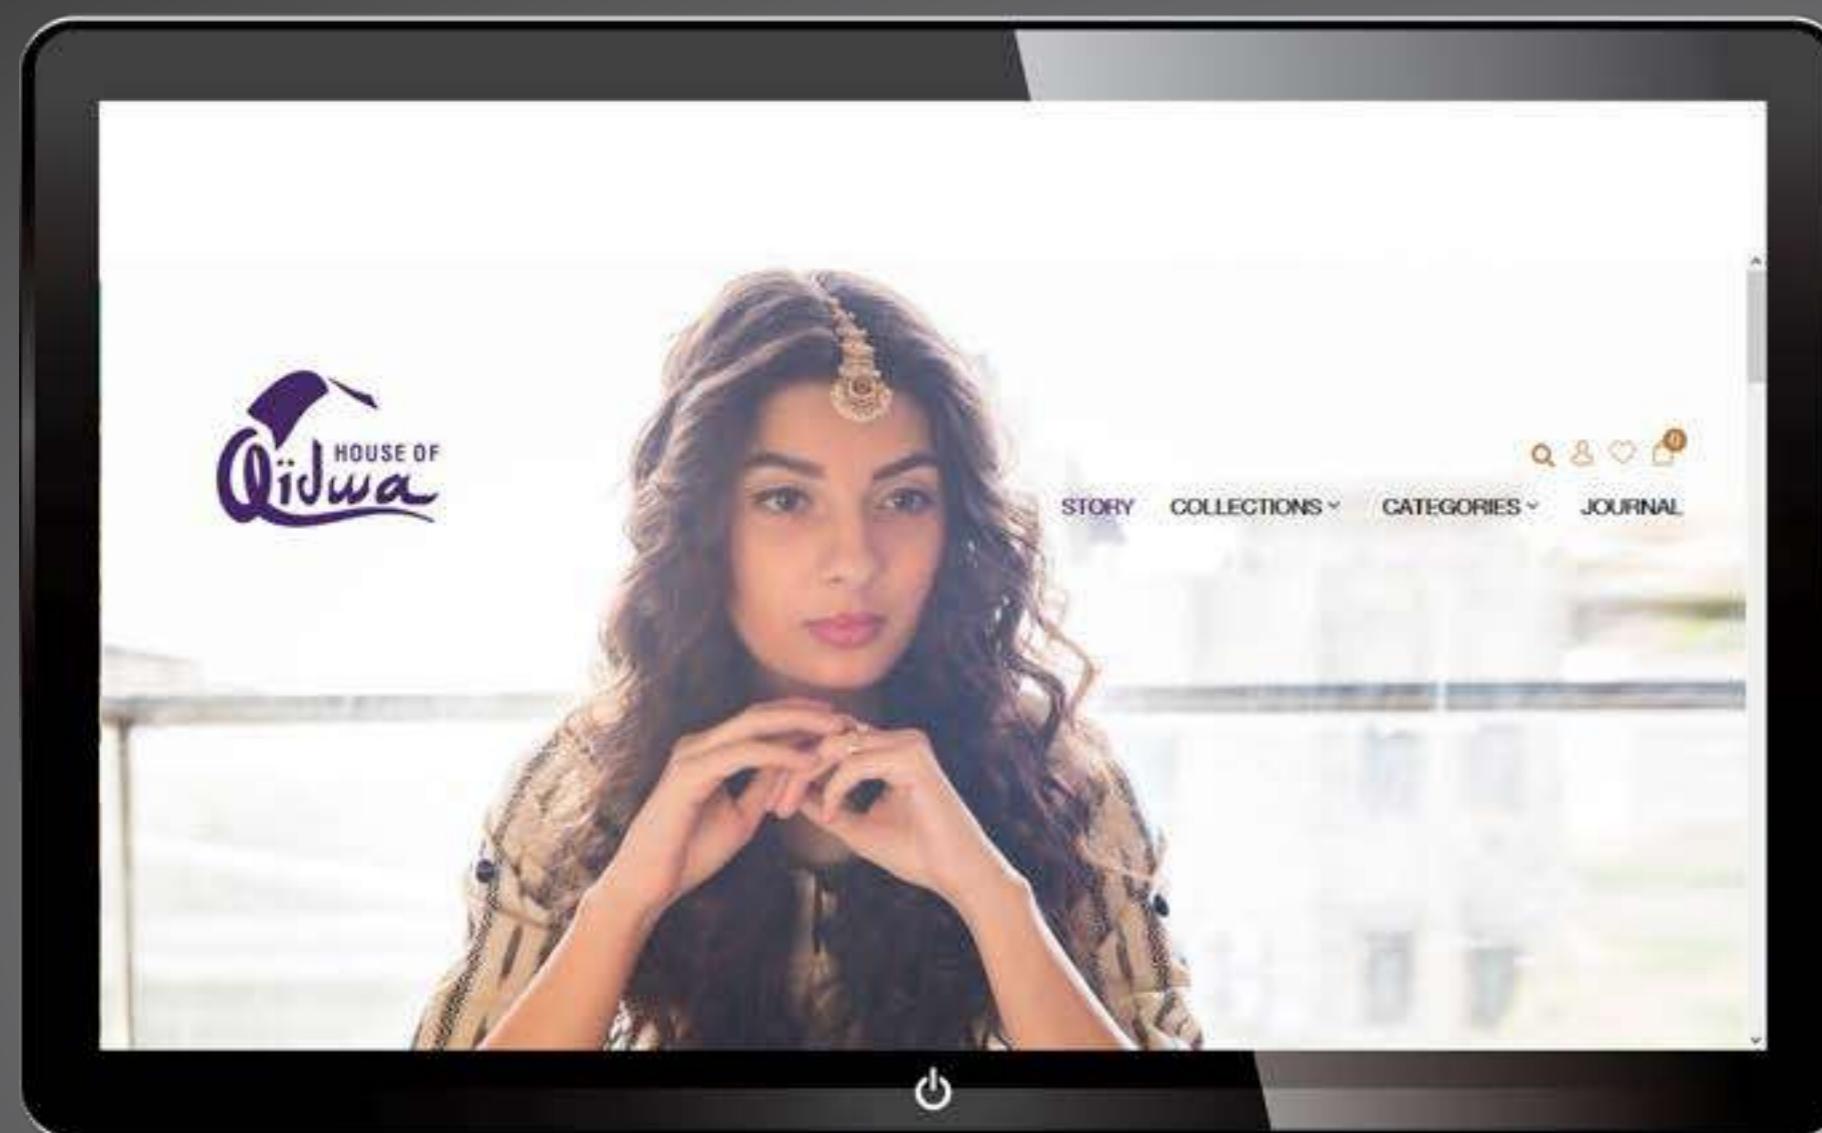

House Of Qidwa, an eCommerce store for exclusive, one-of-a-kind clothing line inspired by the Sufi tradition, strives to bring out the real woman in you. The site has been built by some of the highly experienced eCommerce developers at Webguru Infosystems on WordPress using the WooCommerce plugin. Care has been taken to make it appear poetic in harmony with the Sufi theme by using relevant images, colors, and fonts. Multiple images have been provided to view the product from different angles and detailed descriptions have been given. Besides being top notch in terms of aesthetics, the experienced developers at Webguru Infosystems have ensured seamless viewing experience on a range of mobile devices.

House Of Qidwa has been built using the WordPress WooCommerce plugin.

# GILAND BAGS

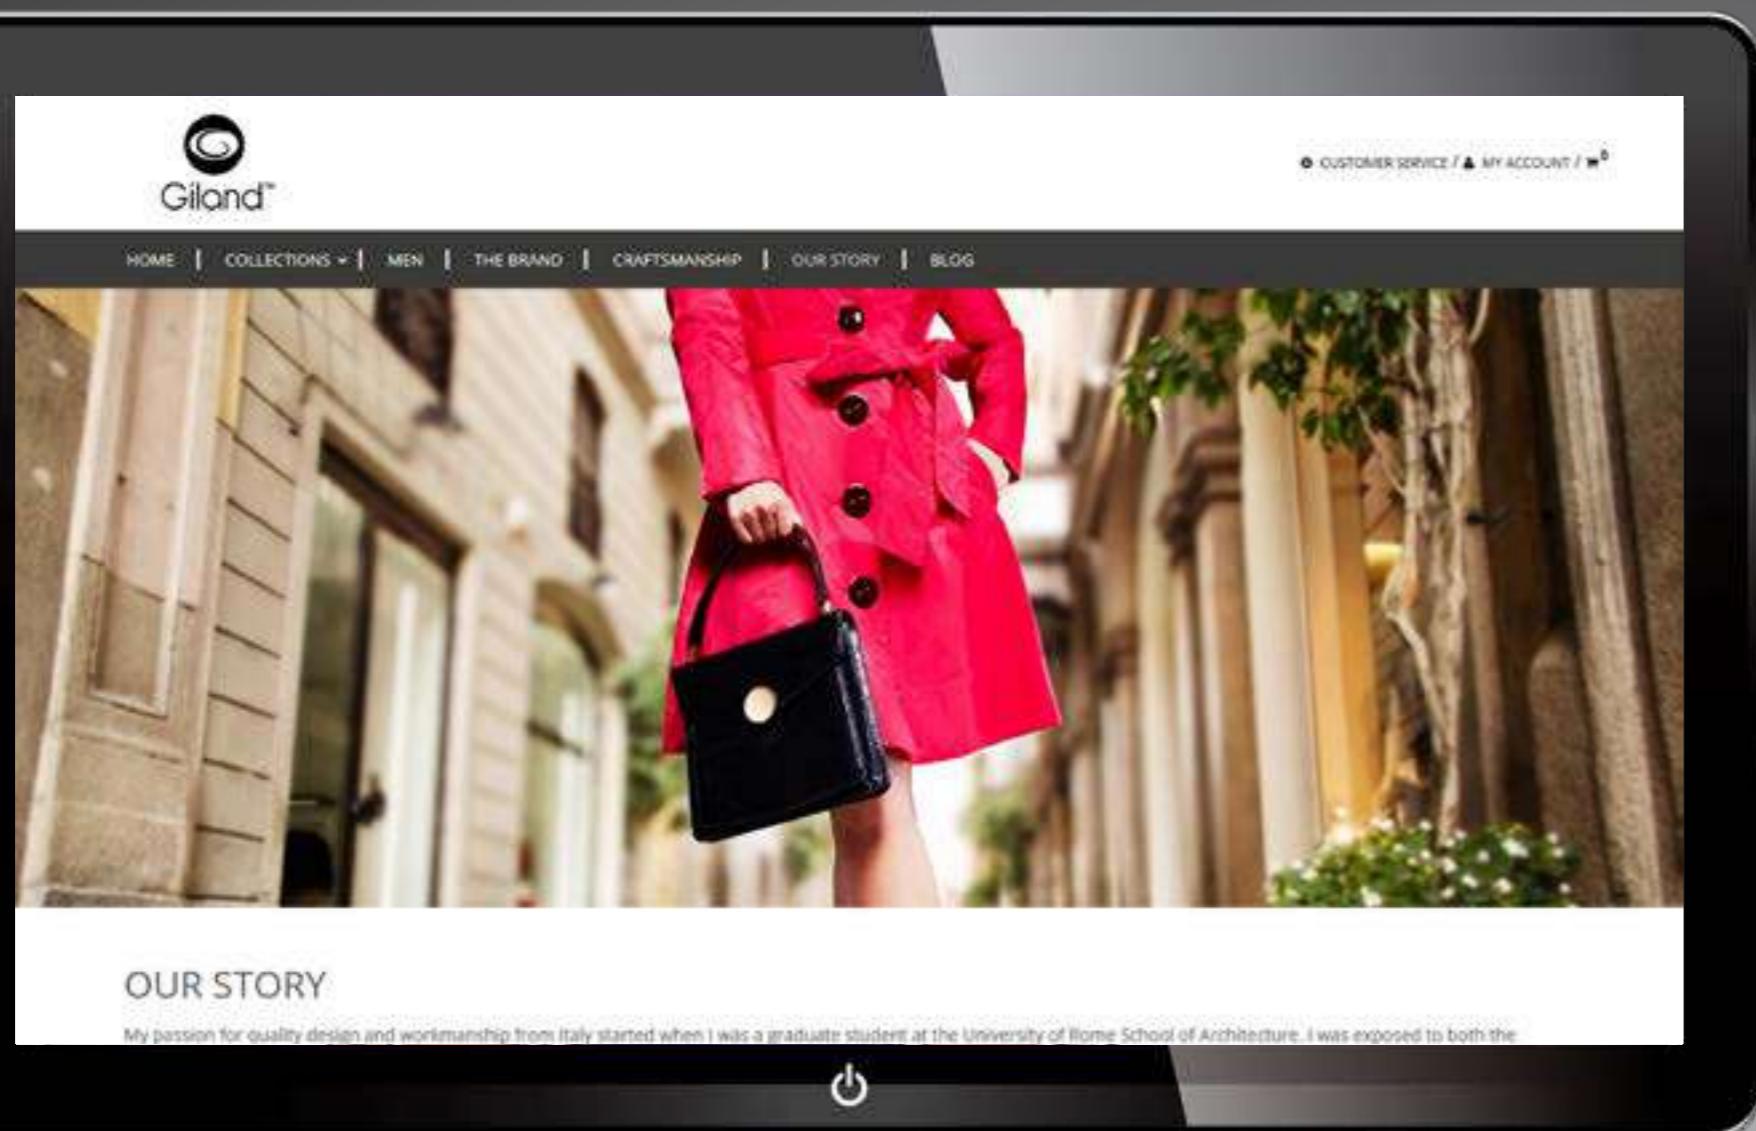

## eCommerce Store For Italian Leather Bags

Giland Bags is an online shopping store for premium quality Italian leather bags. Webguru Infosystems first developed a static website for the owner which was then migrated to a bespoke high-end Magento online store. High-quality images have been used to draw attention with multiple angles featuring the products' most intricate details. Needless to say that the site is mobile-friendly with an interactive user interface. It has been developed keeping in mind the motto of the business i.e. selling high-quality products to the interested customers at a reasonable price point. Also, highly secured payment gateways like PayPal and Authorize.net are integrated to enhance the payment system.

Giland Bags has been developed on the Magento platform.

# YOUR LOCAL STORES

## Buy & Sell at Local Market Place

As is evident by the name, Your Local Stores helps local shop and store owners connect to customers within the local community and sell a wide variety of products. This helps them to reach out to a larger customer base, increasing their revenues and facilitating growth. Webguru designed this platform to have easy navigation for both sellers and buyers, a beautiful UI which is easy to use and the ability to communicate directly with the local businesses. Sellers can easily manage large portfolios while the customers can easily navigate to what they want with minimal steps.

Your local stores is built on the Custom PHP and MySQL  
(CodeIgniter Framework)

The tablet screen shows the homepage of the "Your Local Stores" website. At the top left is the "YOUR LOCAL STORES" logo. The top right features links for "Magazine", "Register", "Login", "Seller Zone", and a shopping cart icon showing \$0.00. A search bar at the top right includes fields for "Post Code" (2067), "Change Post Code", and a "Search Your Product" input field. Below the header, there are navigation tabs for "Grocery", "You Love", and "We Love". A dropdown menu for "Shop by Categories" is open. On the left, a "SELLER LOCATION" dropdown is set to "NSW". The main content area is titled "LOCAL SELLERS" and displays three categories: "Inter Desserts", "Artarmon Family Butcher", and "Koch & Co Butcher". Each category card includes a thumbnail image, the category name, a "Closest outlet" section with address, distance, reviews, outlets, and products counts, and a "Available Shipping Options" button.

The smartphone screen shows the "LOCAL SELLERS" page from the mobile version of the website. The layout is similar to the tablet version, featuring the "YOUR LOCAL STORES" logo at the top. It displays the same three categories: "Inter Desserts", "Artarmon Family Butcher", and "Koch & Co Butcher", each with its respective details and shipping options.

The smartphone screen shows the "LOCAL SELLERS" page from the mobile version of the website. The layout is similar to the other devices, displaying the "Inter Desserts" category with its details and shipping options.

## Jewellery For The Modern Woman

A trusted and reputed name in the world of gold and diamond jewellery with a long legacy, Benud Behari Dutt have some of the most cutting edge technologies for design innovation in their field. To showcase their legacy in ornament design, Webguru designed a website which would reflect it with rich UI but with a measured tone. The design team also made sure to show the connect between heritage and modern technology with measured schemes and layouts. Techniques were employed to ensure quick page loading to minimize bounce rates. Parameters were tuned precisely to ensure cart abandonment was reduced and thus conversion of potential to actual customers were higher.

Benud Behari Dutt Legacy is built on the Magento platform.

# NUDIE SNACKS USA

# Online Store For **Healthy Coconut Snacks**

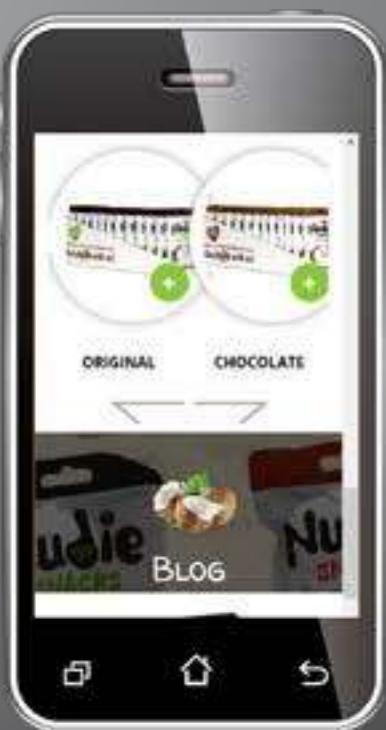

A seller of vegan, gluten free coconut chips, Nudie Snacks delves into the world of snacking in a healthy, natural way. Webguru designed the site for Nudie Snacks to be simple but fun and reflect the ideology of the company and the product. The schemes are colorful, vibrant and energetic while the cart section is easy to find quickly. Navigation is very simple to ensure the highest conversion rate between casual visitors and actual customers and has a mobile friendly version to specifically cater to mobile only customers.

Nudie Snacks USA is built on the Wordpress Woocommerce platform

Woo COMMERC

Visit : <http://www.nudiesnacksusa.com>

The logo for WebGuru E-commerce features the word "WEBGURU" in a bold, sans-serif font. The letters "WEB" are in black, "G" is in blue, "U" is in pink, and "RU" is in yellow. Below this, the words "E-COMMERCE" are written in a smaller, white, sans-serif font. Above the "U" in "WEBGURU", there is a stylized graphic element consisting of a grey computer mouse with a scroll wheel, from which a thin, white, wavy line extends upwards and to the right.

# GLENBURN FINE TEA

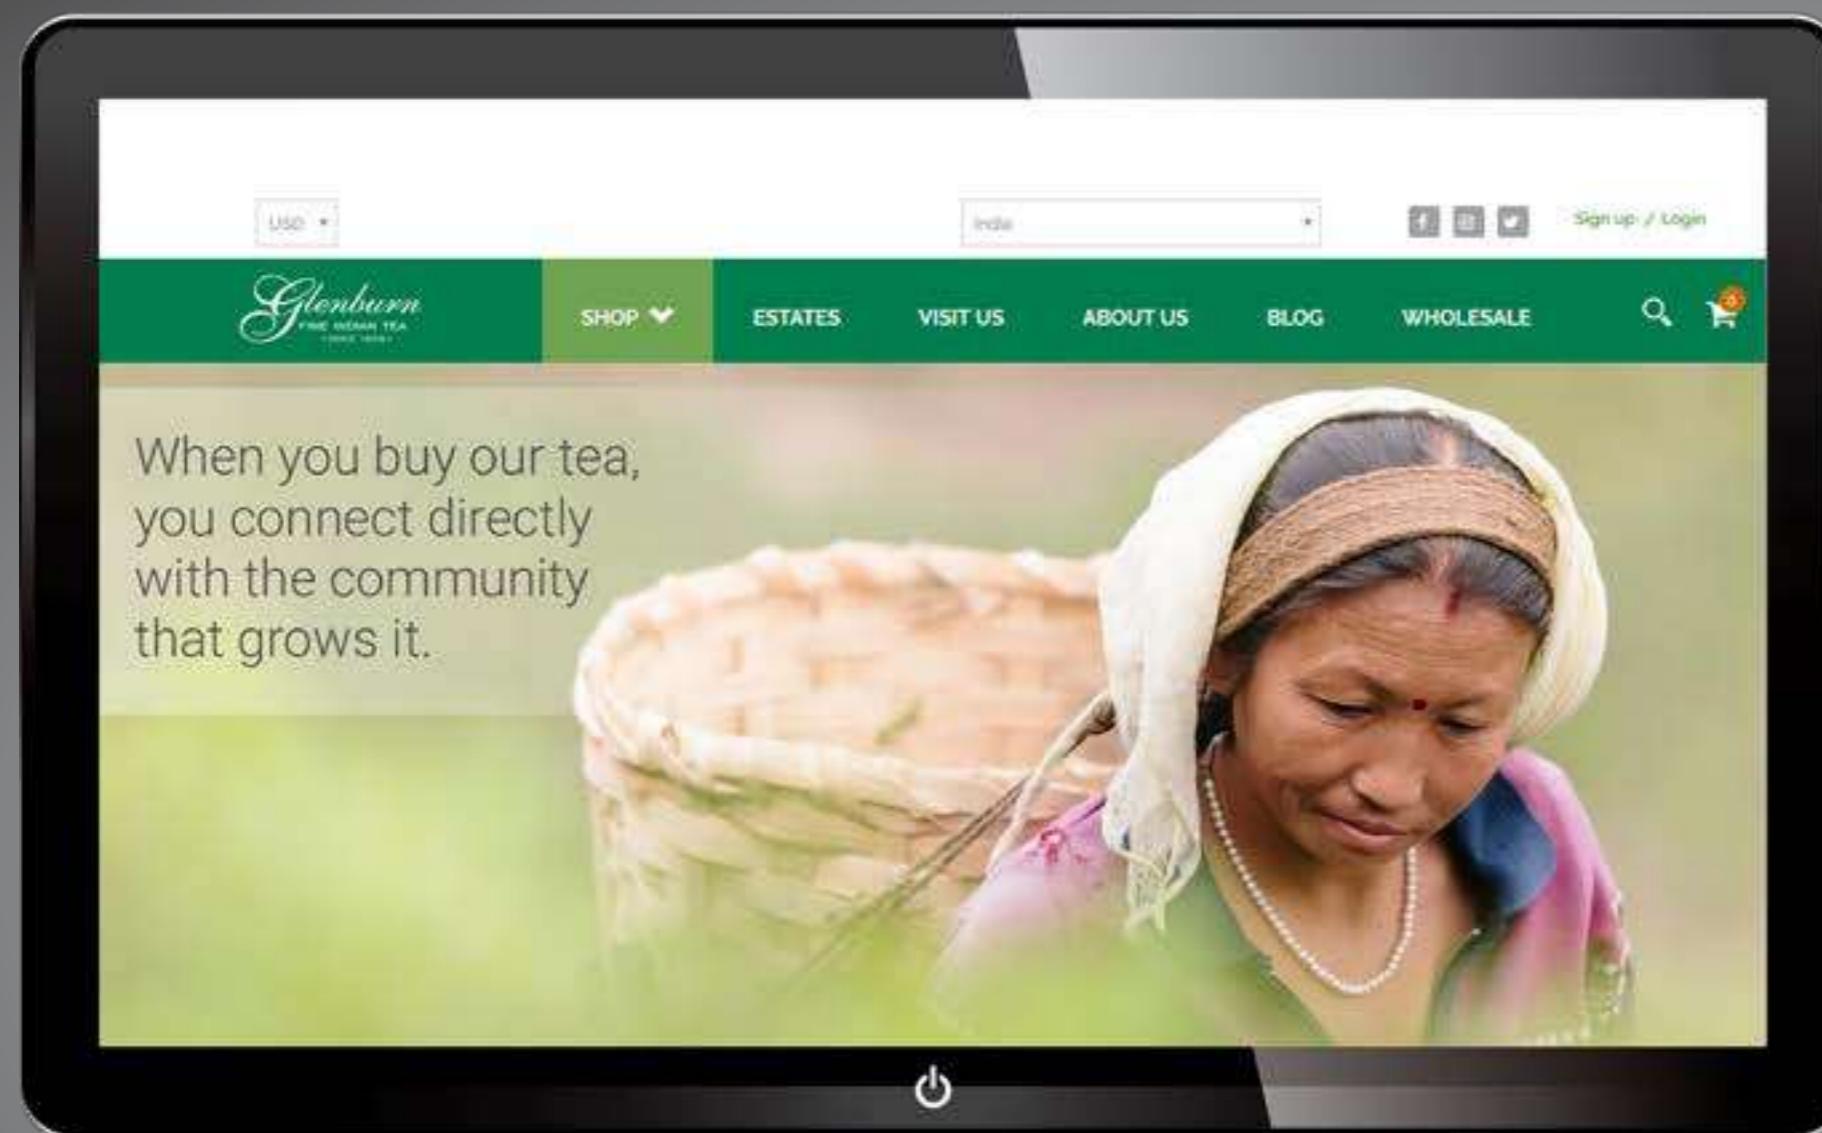

## Finest Tea Just A Click Away

Glenburn deals in a variety of tea types which are of premium quality and are exported to all parts of the world. With a rich company history and legacy, it was important for the Webguru team to ensure that the website reflected that as well. With stunning high quality images from location at their tea estates, the visual appeal of this website is truly remarkable. The UI is still simple and the menus can be easily navigated through. The pricing and cart options are easy to find for customers along with the product range which they can choose from. Our team has also made sure that the mobile and tablet websites can also show off the richness through a very well executed responsive design.

Glenburn Fine Tea is built on the Magento platform.
